

## Satyam Fashion Institute, Noida

### Tri 3d Software Workshop

#### Certificate Program

Objective: To gain knowledge about the software.

Satyam Fashion Institute organised the Tri 3d software workshop for students. The concept of fabric draping on the models or objects digitally. Fabric visualization, digital draping and personalization for ecommerce. This software visualizes garments on models without actually running a model shoot. Students did projects like digital saree draping, fabric rendering in various garment styles.

Students used the software to visualize dresses, shirts, trousers, blazers, suits, kurtis, Indian ethnic wear, and home furnishings. It has helped students to reduce the hassle of organizing and doing a photoshoot. They can simply upload flat images to get high quality, ecommerce ready, 3D images.
